As a skilled front-end developer, I specialize in bringing ideas to life through elegant and user-friendly interfaces. With a keen eye for design and a deep understanding of modern web technologies, I create visually stunning websites that engage users and leave a lasting impact.

PROJECTS

Carbon Tracker

Wipro

- Currently, I am working on a Web3 application called Carbon Tracker that enables organizations to track and display their carbon emissions on the Ethereum network.
- My Responsibility is to Design and develop the frontend interface of the Carbon Tracker DApp using modern web technologies such as ReactJs.
- Also involves working with wallet providers and libraries, such as MetaMask or Web3.js, to enable wallet connectivity and interaction within the DApp.

Comply.finance

Wipro

- I have been part of a Web3 decentralized application called Comply. finance that simplifies the process of being compliant with the crypto taxes for Web3 users and incentivizes compliance with government regulations.
- Collaborating with smart contract developers to integrate frontend components with the underlying smart contracts.
- Implementing secure wallet integration to allow users to connect their wallets to the DApp for authentication and authorization purposes.

VARIS

Wipro

- Varis is a web-application where the users of the application create, read, update and delete the data of vessels and reliefs of a refinery.
- We have successfully delivered project on time and within budget, meeting or exceeding client expectations.
- I have worked closely with back-end developers to integrate data from the server into the user interface.

EDUCATION

BTech in Electronics and Computer Science

KL University- AP, India

06/2016 - 05/2020

Graduated with 8.37 CGPA

SKILLS

ReactJS

JavaScript

Typescript

HTML

CSS

React-Native

Figma

AWS

Redux

SQL

NodeJS

Git

Jest

React Testing

Data structures and Algorithms

Problem Solving

PERSONAL PROJECTS

BOSS

Boss stands for Bank of Secrets. This Dapp helps you to store passwords on a Decentralised network with Encrypt. Link: <https://boss-vercel.vercel.app/>

OAT

OAT stands for Owner and Tenant. This Dapp helps people to find the right owners and tenants for their houses. Link: <https://oat.syedimam1998.repl.co/>

Ethereum Auction

It is simple Dapp that helps you to list a product and conduct and auction on it.

CERTIFICATES

ReactJS Certified

- HackerRank Certified ReactJS

JavaScript Certified

- HackerRank certified JavaScript

Ethereum Developer Certification

- Alchemy Certified Ethereum Developer

AWS Academy Graduate - AWS Academy Cloud Architecting

- AWS Academy Graduate - AWS Academy Cloud Architecting

OPEN SOURCE CONTRIBUTIONS

LinkFree

LinkFree is the Open Source alternative to LinkTree. I have contributed to the development of a NavBar component, including fixing bugs, adding animations and enhancing the user experience.

WeMakeDevs

It is opensource learning platform. I have contributed to the development of a FAQ component adding animations and enhancing the user experience.
